

Seward South Harbor Launch Ramp Renovation

Comment Sheet

The Alaska Department of Fish and Game Division of Sport Fish has partnered with the City of Seward to renovate and improve the existing Seward South Harbor Launch Ramp. This project aims to meet the needs of the recreational boating public for years to come, and is funded through the Recreational Boating and Access Program. In addition to addressing any deficiencies of the current Seward South Harbor Launch Ramp, potential improvements include upgraded floats, conformance to Americans with Disabilities (ADA) requirements, modernization of the facility, and minor site enhancements. We're looking for your feedback on these proposed improvements, and we encourage you to contact us today.

Please provide your comments on this sheet, or send a separate letter, e-mail or fax by March 26, 2018. Thank you!
